

SFY 2016 Prevention Services Funding Opportunity

We are approximately three weeks away from the release of ODP's Funding Opportunity for State Fiscal Year 2016 Substance Abuse Prevention Services Grants.

The general process for funding will be similar to the process used last year, which includes: 1) an online application system; and, 2) the introduction/incorporation of the Strategic Prevention Framework (SPF) 5-step planning model. Links and additional information about these details will follow.

Idaho Youth Prevention Survey 2014 Regional Reports are now available. A listing of available data sources to reference while completing your application will be available with the release of the Funding Opportunity announcement on February 2, 2015.

SFY 2016 Funding Application Process & Timeline - As in the past, ODP plans to support the evidence-based programs, training & materials, travel for program delivery and the other expenses that it takes to make programs successful. Please contact Marianne.King@odp.idaho.gov if you have questions about particular budget items.
