

2022 Enacted Legislation

Controlled Substances

Access to Nabiximols - H446

Once approved by the FDA, nabiximols will become available for prescription and scheduled as a controlled substance by the DEA. Nabiximols is an oromucosal spray derived from marijuana that is being studied in MS and other neurological disorders

Provisions to Idaho's Uniform Controlled Substances Act - S1246

Idaho is now mirrored with the federal DEA controlled substance scheduling decisions for 2021, including placing synthetic opioids in Schedule I, an opiate in Schedule II, multiple substances in Schedule IV and an anticonvulsant in Schedule V.

Tobacco

Age Change to 21 for Tobacco Products and Electronic Smoking Devices - S1284

The definition of "minor" in Section 39-5702 was updated to mean a person under 21. This change makes it unlawful in the state of Idaho for anyone under the age of 21 to possess, receive, purchase, use, or consume tobacco products or electronic smoking devices.

Mental Health

Participation in the Psychology Interjurisdictional Compact (PSYPACT) - S1305

Mental and behavioral health care providers will continue to provide telehealth across state lines with a sunset date of July 1, 2025. PSYPACT ensures patients have access to specialty services and increases the number of qualified, licensed service providers in Idaho
